

SHERRY GAY-DAGNOGO

FOR CONGRESS | 13TH DISTRICT

When I was young, my family knew that education would provide me with more opportunities for a successful and happy future.

I am a first generation high school and college graduate. I became a public school teacher to support the children in my communities, and then I served three terms as a state legislator because I knew my students deserved even more. Now, I'm a school board member, making sure our teachers and schools have the resources they need to support our students.

Education is the opportunity maker. That's why it's a pillar of my campaign to be your next Congresswoman. Will you stand with our students, educators, and schools by supporting me in this race with a \$25 donation?

Chip in \$25

In Congress, I am committed to increasing pay for teachers and delivering a quality public education for every child in the 13th District. It's because of my experiences, as both a student and a parent here, that I know improving education for all children is the key to opportunity for our families.

They say it takes a village to raise a child. I know that's right! Our public schools make up a critical part of our villages. That's why I'm fighting every day to make it to Congress where I'll keep fighting for better opportunities for our youth.

For our families and our futures, I'm prioritizing education in my platform. I'm prioritizing our youth. I'm prioritizing opportunities.

Thank you,
